

DE LA SALLE-COLLEGE OF SAINT BENILDE
School of Management and Information Technology
Information Systems Program

Vision-Mission

De La Salle-College of Saint Benilde envisions itself as an inclusive and innovative community trailblazing extraordinarily in the Creative, Digital, and Service industries in the Philippines and Southeast Asia.

Faithful to our Lasallian heritage, De La Salle-College of Saint Benilde is committed to building a just and humane society. We provide human and Christian formation that is accessible to the underserved and diversely gifted persons.

Benilde Educational Philosophy

The learner-centered philosophy of DLS-CSB is founded on the belief that each student is endowed by God with talents and gifts that should be understood, appreciated, and nurtured. The College believes that each student is endowed by the Creator with talents and gifts that should be cultivated in accordance with the individual's learning style.

Benildean Expressions of the Lasallian Core Values

Exemplify Benildean identity by fulfilling your goals as a student and citizen, and living this out by doing your sense of purpose as defined by our Benildean Expressions of the Lasallian Core Values (BenEx) through meaningful activities.

Inclusion Statement

Inspired by the Lasallian Mission, we at De La Salle-College of Saint Benilde aspire to be a model of an inclusive community by upholding the dignity and rights of all persons. We promote the Benildean Inclusion Values of respect, solidarity, equity, and diversity in Benilde and the communities we serve by breaking the barriers toward a just and humane society.

TYPE OF COURSE	:	IS Professional Course
BIGSKY COURSE	:	
EFFECTIVITY DATE	:	1 st Term AY 2025-2026

NAME OF FACULTY :
SCHEDULE :
CONSULTATION TIME :

Course Description

Imagine stepping into the world of Information Systems not just as a developer or analyst, but as a true professional—one who understands the ethical, legal, and social responsibilities that come with the role. In this course, you will explore the professional issues that shape how Information Systems are designed, implemented, and managed in real-world organizations.

You'll discover how professional codes of ethics, laws, and global standards guide your decisions and actions. You'll navigate complex topics like data privacy, cybersecurity, corporate social responsibility, and the ethics of Artificial Intelligence—issues that will challenge you to think critically, act responsibly, and lead with integrity. Through case studies, debates, and collaborative projects, you will learn why these principles matter and how to apply them in ways that make a positive impact on organizations and society.

By the end of the course, you won't just understand the rules—you'll embody the values of a Benildean IS professional who is God-centered, excellent with integrity, creative, innovative, inclusive, and socially responsible.

General Education Program Outcomes

GEPO1 [K]: Address complex problems by effectively communicating and productively collaborating with others across diverse contexts, while responsibly using appropriate technology and digital tools.

GEPO2 [S]: Demonstrate ethical leadership and teamwork by applying design thinking to create innovative solutions to contemporary challenges.

GEPO3 [S]: Develop holistic perspectives through reflective practices and experiential learning to become engaged and responsible global citizens.

GEPO4 [V]: Uphold human dignity and integrity by practicing social responsibility, advocating cultural sensitivity, and espousing the Benildean expressions of the Lasallian core values.

Program Outcomes:

PO1 [K,S]: Apply system analysis and design concepts through various data gathering methodologies, standard convention and modelling languages to create a software documentation.

PO2 [S]: Create dynamic and secured web and mobile using software development tools and industry-standard frameworks applications to meet system requirements.

PO3 [K,S]: Adapt a project management integration framework guided by professional, ethical, and legal best practices in the community to ensure that projects are executed on time and within budget.

PO4 [V]: Work independently in a God-centered professional practice with excellence, integrity, creativity and innovation sensitive to inclusivity and social responsibility.

<u>Course Outcomes:</u> At the end of the course, you will be able to:	Program Outcomes Mapping
CO1 [K]: Critically analyze professional codes of ethics, industry regulations, and legal requirements in IS to explain how they ensure responsible and lawful practice.	PO3, PO4
CO2 [S]: Evaluate and recommend appropriate courses of action for ethical dilemmas in IS by applying relevant laws, standards, and professional frameworks.	PO3, PO4
CO3 [S]: Assess the societal and organizational impact of emerging IS technologies and propose strategies to mitigate risks while maximizing benefits.	PO1, PO3, PO4
CO4 [V]: Demonstrate professional responsibility, inclusivity, and social awareness through meaningful participation in activities aligned with BenEx.	PO4
CO5 [V]: Exemplify Benildean identity by fulfilling your goals as a student and citizen, and living this out your sense of purpose as defined by our Benildean Expressions of the Lasallian Core Values (BenEx) through meaningful activities.	PO4

Course Structure

This course is conducted by flexible learning, a combination of online and face-to-face meetings, which means you will have to be on campus for a certain period only. You will participate in the course using Benilde's learning management system called BigSky (<https://bigsky.benilde.edu.ph>).

Technology requirements

- A computer (desktop/laptop) or tablet (with a working keyboard) with an updated operating system and an Internet browser
- A media player such as VLC Player or Windows Media Player
- Office productivity tools (Microsoft Office 365: Word, Excel, PowerPoint)
- Headset with microphone
- Internet connection (preferably with at least 6mbps speed)
- Active Benilde Mail account

Communication guidelines

- Announcements. Relevant course announcements (e.g., reminders, deadlines, etc.) will be disseminated either via BigSky News or via our Google Chat group.
- Turnaround/Feedback. For all inquiries related to the course content and assignments, please post your questions either via e-mail or Google Chat. You may also post on our Google Chat group or designated BigSky discussion forum so other class members may benefit from the information. I will address these concerns within 24 hours.
- Consultation. If you have a private course issue you wish to discuss, send an email or chat to my Benilde address. I will respond to your email within 24-48 hours. If you find that you have any trouble keeping up with assignments or other aspects of the course, make sure you let me know as early as possible so that I can help you find a solution.
- Helpdesk. Remember that you always have access to the 24/7 helpdesk (<https://circ-edtech.online/support/> or <https://helpdesk.benilde.edu.ph/>) for technical questions.

Submission protocol

- The requirements for this course (e.g., assignments, activities, projects, etc.) will be submitted electronically through BigSky unless otherwise instructed.
- All submissions must be completed by the indicated due date and time. Late or missing requirements will affect your grade.

N/etiquette

Netiquette is a set of rules for proper online behavior. Your teacher and fellow learners wish to foster a conducive environment for online learning. All opinions and ideas, whether agreeable or controversial, must be valued in the tolerant spirit of academic dialogue. To enhance the learning experience of everyone in the course, remember to keep an OPEN MIND.

- Allow other students to join in the discussion.
- Keep the exchange POSITIVE by using polite and professional (i.e., not slang) language. Humor is also acceptable!
- Use EMOTICONS judiciously. While they can help convey your tone, overusing them may be distracting.
- Sharing your NICKNAMES can help build a friendly atmosphere online.
- Practice MINDFULNESS in your written language. Think and edit before you post.
- Communicating your IDEAS is an important part of your online learning experience.
- Expect NOVELTY and welcome the new things that you will come across in the course.

- Respect DIVERSITY by recognizing differences in opinions and ideas. You are encouraged to comment, question, or critique an idea but you are not to attack an individual.

Learning Plan

Note: CO=Course outcomes

Week/ s	Topics	Intended Learning Outcomes (ILOs)	Teaching and Learning Activities (TLAs)	Assessment Tasks (ATs)	Evaluation Strategies (ESs)	Resources	Due Date
1	Introduction to Professional Issues in IS	LO1 – Analyze the scope and responsibilities of IS professionals to explain why ethical and legal awareness is essential in guiding how they fulfill their roles in organizations.	Lecture, guided discussion, reflective sharing	Short reflective paper	Rubric assessing depth of analysis, clarity, and relevance	Slide decks Web resources: • https://www.acm.org/code-of-ethics	End of Week 1
2	Professional Codes of Ethics	LO2 – Evaluate recognized IS professional codes of ethics to determine why they are critical in promoting integrity and how they guide decision-making in professional practice.	Lecture, code of ethics comparison activity, case discussion	Comparative matrix of ethics codes	Rubric on completeness, accuracy, and quality of evaluation	Slide decks Web resources: • https://www.acm.org/code-of-ethics • https://www.ieee.org/about/corporate/governance/p7-8.html	End of Week 2
3	Legal Foundations of IS Practice	LO3 – Assess applicable laws and regulations in IS to explain why compliance is necessary and how they shape the development, deployment, and use of systems.	Lecture, guest talk, group discussion	Case study analysis	Rubric assessing identification of laws, explanation, and application	Slide decks Harvard Business Impact Cases / Articles Web resources: • https://www.officialgazette.gov.ph/2012/09/12/republic-act-no-10175/	End of Week 3

						• https://privacy.gov.ph/data-privacy-act/	
4	Data Privacy and Protection	LO4 – Examine data privacy principles and laws to justify why safeguarding personal information is vital and how these principles should be applied in IS operations.	Lecture, law review activity, case discussion	Privacy impact assessment exercise	Rubric on legal basis, reasoning, and applicability	Slide decks Harvard Business Impact Cases / Articles Web resources: • https://privacy.gov.ph/data-privacy-act/ • https://commission.europa.eu/law/law-topic/data-protection_en	End of Week 4
5	Cybersecurity Laws and Policies	LO5 – Analyze cybersecurity legislation and policies to explain why they are essential for risk mitigation and how they influence security strategies in IS environments.	Lecture, review of laws, risk analysis activity	Written risk mitigation plan	Rubric on risk identification, policy alignment, and practicality	Slide decks Office productivity tools Web resources: • https://www.officialgazette.gov.ph/2012/09/12/republic-act-no-10175/ • https://oecd.ai/en/ai-principles	End of Week 5
6	Ethical Decision-Making in IS	LO6 – Formulate solutions to IS-related ethical dilemmas to explain why ethical reasoning matters and how structured frameworks support responsible decision-making.	Interactive lecture, ethical dilemma simulation	Written resolution to ethical dilemma	Rubric on ethical reasoning, use of framework, and feasibility	Slide decks Harvard Business Impact Cases / Articles Web resources: • https://www.acm.org/code-of-ethics	End of Week 6

						https://www.ieee.org/about/corporate/governance/p7-8.html	
7	MIDTERM EXAMINATION						
8	Emerging Technologies and Professional Responsibility	LO7 – Evaluate the impact of emerging IS technologies to explain why professional responsibility must adapt and how risks can be mitigated while maximizing benefits.	Lecture, case discussion, trend analysis activity	Group presentation	Rubric on depth of evaluation, risk-benefit analysis, and clarity	Slide decks Harvard Business Impact Cases / Articles Web resources: https://www.worldbank.org/en/topic/digitaldevelopment	End of Week 8
9	AI Ethics	LO8 – Critique AI ethical issues such as bias, transparency, and accountability to explain why responsible AI matters and how ethical guidelines can be applied in practice.	Lecture, AI ethics case study, debate	AI ethics position paper	Rubric on argument strength, evidence, and ethical grounding	Slide decks Office productivity tools Web resources: https://oecd.ai/en/ai-principles	End of Week 9
10	Societal Impacts of Information Systems	LO9 – Assess the societal implications of IS to explain why inclusivity and accessibility are necessary and how IS can reduce or exacerbate the digital divide.	Lecture, community impact mapping	Written societal impact report	Rubric on analysis depth, relevance, and proposed solutions	Slide decks Office productivity tools Web resources: https://www.worldbank.org/en/topic/digitaldevelopment	End of Week 10
11	Corporate Social Responsibility in IS	LO10 – Propose CSR initiatives in IS to explain why sustainable practices matter and how IS can contribute to environmental and social goals.	Lecture, CSR brainstorming workshop	Group CSR proposal	Rubric on innovation, alignment to CSR goals, and feasibility	Slide decks Office productivity tools	End of Week 11

						Web resources: • https://sdgs.un.org/topics/information-and-communications-technology	
12	Project Management Ethics	LO11 – Justify ethical considerations in IS project management to explain why ethical leadership is vital and how it fosters trust and accountability.	Lecture, project ethics scenario discussion	Ethical leadership reflection paper	Rubric on justification, clarity, and linkage to leadership principles	Slide decks Office productivity tools Web resources: • https://www.acm.org/code-of-ethics • https://www.ieee.org/about/corporate/governance/p7-8.html	End of Week 12
13	Intercultural and Global Perspectives in IS	LO12 – Analyze global and intercultural factors in IS to explain why cultural sensitivity matters and how it influences system design and implementation.	Lecture, intercultural role-play	Cultural sensitivity improvement plan	Rubric on cultural insight, recommendations, and alignment to context	Slide decks Office productivity tools Web resources: • https://sdgs.un.org/topics/information-and-communications-technology	End of Week 13
14	FINAL EXAMINATION						

Course Requirements

In this course, you are expected to actively participate in all activities and effectively apply what you are learning in class. Your academic performance will be based on the following requirements:

- *Quizzes*

- o Quizzes will be administered regularly to check your understanding of the subject matter.
 - o There will be between 6 and 8 quizzes throughout the term.
- *Class Participation*
 - o This component will include online activities such as discussion forums and assignments.
 - o There will be a minimum of 10 activities for the whole duration of the course.
- *Project/Problem-Based Learning Activity*
 - o Projects and PBLs will demonstrate how well you apply your knowledge in the course.
 - o This component will be accomplished collaboratively in groups (3-4 members).
- *Major Exam*
 - o This exam will cover several major topics and will assess your overall competencies in the course.
 - o The test items will include both objective and essay questions.
- *Self-Assessment*
 - o This component will allow you the opportunity to reflect on your learning and determine elements of your academic performance that need improvement.
 - o Self-assessment checks will be available at the end of each major course topic.
- **Grading System.** Your grade in this course will be computed based on the following types and weights:
Grading system: Cumulative and “zero-based; passing is 70%”
 - o **Knowledge:** Formative evaluation **(10-35%)**
 - **(10-20%)** May include drills, quizzes, activities, worksheets, assignments, group work, etc.
 - **(5-10%)** Self/Peer evaluation of reflection on what has been learned including explanation of key ideas and plans for investigating more involved problems
 - o **Skills:** Summative evaluation **(50-70%)**
 - **(10-15% each)** Midterm Exam and Final Exam
 - **(40-55%)** May include projects, portfolio, research paper, journals, and other performance tasks
 - o **Values:** **(5-10%)**
 - May include self/peer & teacher’s evaluation of any/all of the following:
 - self-management skills (independence, promptness in submitting requirement)
 - collaboration/class participation, honesty, etc...
 - BenEx

Grading System:

Grade Components	Weight/Percentage
Quizzes	20%
Activities	20%
Class Participation	10%
Project	20%
Major Exam	30%
Total	100%

Course Policies and Guidelines

As a student in this course (and Benilde), you are expected to maintain a high degree of professionalism and a strong commitment to active and responsible learning. The conduct of this course is governed by the provisions of the Student Handbook (i.e., Academic Performance and Student Discipline). Benilde's policies regarding **academic integrity** are strictly followed in this class whether face-to-face, online, or remote (offline).

AI Policy Statements:

(Level 2: Limited AI Assistance)

Outcome: Students can effectively use AI tools to support their learning while maintaining independent thought and analysis.

You may use AI tools for tasks such as grammar checking or initial brainstorming. However, the primary focus should be on developing original ideas and demonstrating a deep understanding of the course material. AI usage must be disclosed, and you should be able to explain how AI assisted their work.

Accommodations through the Center for Inclusive Education

Accommodations are available for learners with documented disabilities. In such cases, requests for assistance may be coursed through the Center for Inclusive Education (CIE). CIE may be reached by telephone (632-82305100 local 3701 or 3702) or email (cie@benilde.edu.ph). You may also visit their physical office located at SDA Room 309.

Benilde Philosophy of Discipline

Discipline is the formation and development of character according to Christian ethics that help students grow and develop into “mature, responsible, effective, and worthy citizens of the community.” Students are expected to observe and abide by the laws of the land, the issues of the Commission of Higher Education, and the code of discipline and provisions, norms, rules, and regulations prescribed by the College. Refer to the [*Benilde Undergraduate Student Handbook AY 2022-2025, Section 7: Student Discipline*](#)

Rubric

Generic Rubric for Course Assessments

Criteria	Excellent (4)	Proficient (3)	Satisfactory (2)	Needs Improvement (1)
Content Mastery	Demonstrates thorough understanding; accurate, relevant, and insightful; exceeds expectations.	Good understanding; mostly accurate and relevant; meets expectations.	Partial understanding; some inaccuracies; meets minimum requirements.	Limited understanding; major inaccuracies or irrelevant content.
Application & Analysis	Consistently applies concepts; deep analysis with strong reasoning and evidence.	Applies concepts appropriately; adequate analysis with reasonable evidence.	Limited application; shallow analysis or weak evidence.	No application of concepts; missing or incorrect analysis.
Organization & Structure	Logically organized; smooth transitions; coherent flow.	Well-organized; minor lapses in flow.	Inconsistent organization; loosely connected ideas.	Poorly organized; scattered ideas.
Clarity & Communication	Clear and concise; flawless grammar, spelling, and formatting.	Mostly clear; minor errors.	Occasionally unclear; several errors.	Unclear; frequent errors hinder comprehension.
Creativity & Originality	Exceptional creativity and originality; innovative approach.	Some creativity; competent approach.	Minimal creativity; basic approach.	No creativity or originality.
Ethical & Professional Considerations	Fully integrates ethical, legal, and professional standards; critically aware.	Adequately integrates standards.	Limited integration of standards.	No evidence of ethical, legal, or professional consideration.

Performance Scale:

- **4 (Excellent)** – 90–100%
- **3 (Proficient)** – 80–89%
- **2 (Satisfactory)** – 70–79%
- **1 (Needs Improvement)** – Below 70%
